NOTICE.

WATER PRIVILEGE FOR SALE.—The subscriber has a very convenient Water privilege, suitable for the situation of a Furnace, Forge or other water works. It is situated on Swan Creek, three and a half miles from Port Miami. The water may be taken from the subscribers mill pond, at a trifling cost, and with perfect security from damage by the freshets. In the distance of two or three miles there are inexhaustible beds of iron ore of the first quality, and the country being very level presents no obstruction to the building of a road in any direction with very little expense. The ore lies in beds, near the top of the ground, and has been judged to be of the richness of sixty per cent. The subscriber will give great encouragement to any person or persons who will undertake and carry on the above business, and will take an interest in the works, or sell the situation. This improvement is greatly needed in this country, and might be made immediately and immensely profitable.

For further particulars, inquire of the subscriber in Miami city.
